Profile Summary

Software Engineer with **4.9+** years of experience building **scalable backend systems** using **ASP.NET Core, Azure, Angular, and SQL**. Experienced in **microservices, event-driven architectures, high-performance integrations**, and **system optimization**.

Experience

Zenoti

Nov 2025 – Present

Senior Software Engineer

Hyderabad, Telangana

- Enhanced rule-based marketing discount workflows to support voucher and campaign usage per invoice for **30,000+** customers.
- Resolved **15+ high-impact production issues** across **Appointment Book** and **Marketing** modules, improving **platform reliability** and transactional workflow accuracy.
- Architected an end-to-end event-driven Integration Reporting platform in **.NET 8, PostgreSQL**, and **Kafka**, powering the HubSpot CRM dashboard at **5M+ events/day**.

Thinkbridge Software PVT LTD

Jun 2023 – Nov 2025

Senior Software Engineer (Promoted from Software Engineer)

Pune, Maharashtra

- Designed and implemented scalable ATS integrations between Bullhorn, iCIMS, and Compass using ASP.NET Core microservices and Webhook APIs, processing **15,000+ candidates daily** and reducing processing time by **60%**.
- Built an **event-driven email parsing system** processing **50,000+ applications weekly**, reducing recruiters' manual workload by **90%**.
- Implemented **Azure AD SSO** using **OAuth2** and **OpenID Connect**, securing authentication workflows for **2,000+ daily users**.
- Optimized third-party integrations handling **10,000+ daily transactions**, improving application performance by **45%** through database and code-level optimizations.
- Architected **event-driven** workflows using **Azure Functions** and **message queues**, reducing system latency by **30%**.
- Redesigned automated candidate engagement workflows by implementing state-based response mapping for stateless Twilio SMS systems, improving candidate experience and response reliability.

Tark Technologies

Aug 2021 – Jun 2023

Junior Software Engineer

Rajkot, Gujarat

- Developed healthcare dashboards and reports using ASP.NET Core Web API and Angular, implementing complex business logic and data processing to deliver real-time operational insights.
- Accelerated application performance by identifying bottlenecks with **MiniProfiler** and refining database queries, reducing **API latency by 30%**.
- Enhanced scalability and maintainability by upgrading **Angular (v8 to v15)**, **.NET (v4.7 to v6)**, and migrating MSSQL databases to MySQL using **Skeema.io** and **FlywayDB**.
- Implemented a distributed caching layer using **Castle Core** interceptors to memorize expensive operations, eliminating redundant database load on hot read paths.
- Mentored and onboarded **6** interns, supporting project delivery and accelerating team productivity.

Technical Skills

Languages: C#, SQL, JavaScript

Frameworks & Libraries: ASP.NET Core Web API, Angular, Entity Framework Core, Dapper ORM, ADO.NET, LINQ

Databases: SQL Server, MySQL, Redis

Unit Testing: xUnit, NUnit, MsTest

Cloud & DevOps: Microsoft Azure, Git, DevOps, Jira, Kafka

Architecture: Microservices Architecture, SOLID Principles, Design Patterns, Data Structures & Algorithms

Education

V.V.P. Engineering College (Gujarat Technological University)

Jun 2017 – Jul 2021

Bachelor of Computer Engineering

Rajkot, Gujarat

CGPA: 9.80 / 10

Achievements

- Best Programmer (2018–2021) — Awarded for exceptional coding skills in college.
- NASSCOM Certified Software Developer — Certified in software development and product development.
- Solved **2000+ LeetCode problems** with a maximum contest rating of **1920 (Knight, Top 4%)**.
